**DETAILED ACTION**

1. This action is in response to applicant's amendment filed on 22 June 2006. **Claims 1, 3-13, 15-28, 30-43, and 45-67** are now pending in the present application.

***Response to Amendment***

2. The reply filed on 22 June 2006 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s):
  - a. Applicant presented claims 1, 13, 20, 27, 42, 50, and 62 that are directed to an invention distinct from and independent of the invention previously claimed. See MPEP § 821.03 and 37 CFR 1.145.

See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

*Election/Restrictions*

3. Newly submitted **claims 1, 3-13, 15-28, 30-43, and 45-67** directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:
- a. **Claim 1** recites the limitations “...including a **packet**, the **packet** including radio receive...and the **packet being addressed** to a component of a coupled computer...” in line(s) 3-4 of the claim.
  - b. **Claim 13** recites the limitations “...including a **packet**, the **packet** including radio receive...and the **packet being addressed** to a component of a coupled computer...” in line(s) 5-6 of the claim.
  - c. **Claim 20** recites the limitations “...including a **packet**, the **packet including the radio reception**...and the **packet being addressed** to a component of a coupled computer...” in line(s) 4-5 of the claim.
  - d. **Claim 27** recites the limitations “...including a **packet** over a high speed data communication bus...**packet** indicating a start...and being addressed to a component of the computer...” in line(s) 2-5 of the claim.
  - e. **Claim 42** recites the limitations “...including a **packet** over a high speed data communication bus...**packet** indicating a start...and being addressed to a component of the computer...” in line(s) 4-7 of the claim.
  - f. **Claim 50** recites the limitations “...including a **packet** from a coupled radio...**packet** indicating a start...the **packet being addressed** to a component of the computer...active **packet**...” in line(s) 2-5, 9 of the claim.

Art Unit: 2617

- g. **Claim 62** recites the limitations "...generating a radio active signal including a packet, the packet including a radio receive start time and the packet being addressed to ac component of a coupled computer; transmitting the radio active signal to the component of the coupled computer to which the packet is addressed to affect the radio interference generated by the coupled computer..." in line(s) 3-7 of the claim.

Regarding claims 1, 13, 20, 27, 42, 50, and 62, the limitations of the claims present an independent or distinguishable aspect of the claims that clearly differ from the originally presented invention.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, **claims 1, 3-13, 15-28, 30-43, and 45-67** withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

4. This list of examples is not intended to be exhaustive. The Examiner respectfully requests the applicant to review all claims and clarify the issues as listed above as well as any other issue(s) that are not listed.
